### **QUESTIONS AND ANSWERS:**

The City received the following question(s), clarification(s) or suggestion(s) by email from Falcon 6 Infrastructure Group., ("FIG") on February 18, 2019:

**FIG Question No. 1: *Please consider the following in efforts to provide a more competitive approach and or opportunity for "new company": In the event that a "New Firm" is established by executives, supervisors, and senior field staff ("key employees") that would have met the minimum experience requirements with a prior firm, the OWNER reserves the right to qualify the firm based on its sole determination and evaluation of the knowledge and prior experience of these key employees employed by the "new firm". The experience of key senior personnel with other firms may be counted towards the proposer's experience requirement, if acceptable to the ENGINEER OF RECORD?***

**City's response:** The bidding company must meet the minimum requirements outlined in the ITB.

The City received the following question(s), clarification(s) or suggestion(s) by email from Marcdan, Inc., ("MI") on February 26, 2019:

**MI Question No. 1:** What is the contract duration for this project?

**City's response:** The contractor will have a total of 120 days for construction.

The City received the following question(s), clarification(s) or suggestion(s) by email from Ric-Man International, Inc., ("RII") on February 14, 2019:

**RII Question No. 1:** Can you provide engineers estimate for the above referenced project?

**City's response:** The engineer's cost estimate is \$297,190.72.

The City received the following question(s), clarification(s) or suggestion(s) by email from Acosta Tractors, Inc., ("ATI") on February 28, 2019:

**ATI Question No. 1:** Does bid item 339-1 (Miscellaneous Asphaltic Concrete, 1" at driveways) is for the asphalt course only?

**City's response:** Yes

**ATI Question No. 2:** The driveways disturbed for the drainage system installation will need to be restored. Does this restoration will include a rock base? What is the thickness of it? Under which pay item we will include it. Please advise.

**City's response:** It is covered under item 430-171-115 and 430-171-118 (description and notes).

**ATI Question No. 3:** On Sheet C-8 between lots 5872 and 5880 where structure S-15 will be installed there is a note "Existing tree to be protected in place". This is an impossible operation since the contractor will need to cut the roots of this tree in order to install structure S-15. The proposed structure is too close to the tree. Could the city consider the removal of this tree? And also, under which pay item will be included?

**City's response:** Proceed as per plans, location of S-15 could be adjusted on site to avoid the removal of the tree.

**ATI Question No. 4:** Sheets C-4 thru C- 6 of the set of plans indicate the removal of existing asphalt pavement (Pay Item 110-4-10 of the Bid Form). Under which pay item the contractor shall include the replacement of this removed asphalt?

**City's response:** Asphalt for pavement restoration (assumed 1") = 66 Ton
